

I am so disgusted with the Republican campaign and their distorted TV advertising. To have the Sinclair Broadcasting right before a campaign with noted untruths is just another example of what is going wrong in America....because of the NEW Republican party. It is not the party my husband and I used to belong to.. Our media has kept going already too many lies and misinterpretations and half facts of Kerry's record and life. Most of the country realized the Vietnam was a terrible mistake at the time he spoke out and he and people like Colin Powell were also beginning to feel it was a big mistake. Muriel Henderson
